CFO on the go Becomes Largest Sage Master Builder Reseller

CFO on the go adds over 600 Sage Master Builder customers and 9 Sage Certified Consultants through merger with Logical Construction Concepts of Northern California.

Temecula, California – April 7, 2010 - Chief Financial Officer on the go (www.cfosonthe-go.net) has announced a merger with Logical Construction Concepts (LCC) of Northern California as of March 1, 2010. In the process, CFO on the go added over 600 new customers and bolstered their workforce which now includes 21 Sage Certified Consultants, making the combined organization the largest [Sage Master Builder](#) reseller in the Sage channel with over 1,300 customers. CFO on the go provides Sage Master Builder and [Sage Timberline Office](#) sales, support, and training to construction businesses throughout California, Nevada, Arizona, New Mexico and Colorado.

Founders, Dennis Feidner of CFO on the go and Jim Cumming of LCC, have known each other for the past 9 years and spent a week fly fishing in Mammoth this past summer. In conversations during the course of the week, they discovered that each of them ran their businesses with the same principles. As a result, it was clear that the combined operations, resources, and “best practices” of each firm would result in an organization that’s even stronger and more diverse than the two separate entities.

Jim Cumming of LCC was quoted as saying, “Our focus has always been on helping our clients succeed in the construction industry. The merger with CFO on the go will continue that focus and provide a wider range of tools and technologies to make them more productive and efficient. Service to the Northern California building community will be greatly enhanced by this merging of Sage Master Builder talent and resources.”

CFO on the go provides many services for the construction industry including:

- Construction newsletters and construction whitepapers
- Free web seminars for new Sage Master Builder and Sage Timberline Office product releases
- Leading template designer for Liberty Reports – Excel integrator for Sage Master Builder

- Customized Alert System for Sage Master Builder
